

HOW TO RETRIEVE YOUR EDELIVERY ORDER FROM DROPBOX

Once your Order has been confirmed, you will receive an email with a link to a Dropbox folder containing the CD files. When you open the email, you should see a message that looks similar to the one below:

Click on the **"Go To Folder"** button and you will be taken to the Dropbox website and folder containing your CD tracks. The view will look something similar to the one below (the folder name and the track listing will be specific to the CD(s) that you have ordered):

In the top right-hand corner you will see a **"Download"** button (see left image below). Click on this and you will be presented with two options (see right image below):

You have a choice of either downloading the tracks to your Dropbox Account if you have one, or downloading to your system's "Download Folder" - this varies by Operating System, and also whether you use a PC or a MAC. The tracks will be downloaded as a **ZIP** file - this will have to be "unzipped" (extracted). Depending on your system, this might be as simple as clicking on the .ZIP file. You can then move the CD Tracks to a folder of your choosing.

Enjoy your music!
